

Our Specialities // Knowledge :

Injection moulding of technical small and medium dimensions, rubber parts (LSR, SILICONES, NBR, HNBR, EPDM, VITON...).

Moulding and overmoulding of technical (rubber/metal – rubber/plastic)

small and medium dimensions rubber parts (CR, NBR, VITON, EPDM, SILICONES, LSR ...)

Components assembling

Automatic process for 2k small dimensions technical sub components

(TP + self-adhesive LIQ SIL (LSR))

PARTS FUNCTIONS :

SPECIFIC SEALING:

HCR based products for regulation functions, fluid and gas control, gas, sensors and connectors, ignition and injection system seals...

Use : water meters, gas regulators, valve, solenoid valve, sensors and connectors, "actuators", "dispensing systems", "closures" ...
